Solution

- An online “neuroentrepreneurship” learning space and software where:

These two fields are mixed together and advocated for

Founders can go learn brain-based solutions for their startup (activities)

They can learn how to apply this for personal life benefits as well

Testimonials

From Successful People Who Have Used
Neuroscience

**RAY DALIO -
INVESTOR,
ENTREPRENEUR,
PHILANTHROPIST**
[@RayDalio](#)

I attribute as much as my success to what I've learned about the brain as I do to my understanding of economics and investing

**ANGELA LEE
DUCKWORTH - GRIT
PSYCHOLOGIST**
[@angeladuckw](#)

Dr. Dweck has shown that when kids read and learn about the brain and how it changes and grows in response to challenge they're much more likely to persevere when they fail, because they don't believe that failure is a permanent condition. (Entrepreneurs can do the same).

**JIM KWIK - BRAIN
COACH**
[@jimkwik](#)

Your brain is like a super computer and your self-talk is the program it will run
